PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience in full-stack web development, software development, IoT systems, and UI/UX design. Completed a Web Developer Internship at Highly Succeed Inc., where I independently designed, developed, and deployed a Human Resource Information System (HRIS) using JavaScript, TypeScript, Node.js, and Supabase. Skilled in building scalable web applications, database management, authentication systems, and responsive solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python  
Frontend: HTML5, CSS3  
Backend: Node.js  
Database: Supabase, PostgreSQL  
Tools: Git, GitHub, VS Code, Vercel, Figma, Canva  
Concepts: REST APIs, Authentication, CRUD Operations, Responsive Design  
**Core Technologies:** JavaScript, TypeScript, Node.js, Supabase, PostgreSQL, Git, REST APIs

PROFESSIONAL EXPERIENCE

Highly Succeed Inc. | Web Developer Intern | Mandaluyong City, Philippines  
February 16, 2026 – May 13, 2026

- Independently designed, developed, tested, and deployed a Human Resource Information System (HRIS) as a solo project.
- Built the application using JavaScript, Typescript, Node.js, and Supabase.
- Implemented authentication, employee management, and database-driven workflows.
- Managed database design, CRUD operations, and system functionality.
- Deployed and maintained the application on Vercel.
- Collaborated with supervisor and teammates and colleagues to gather requirements and implement improvements.

PROJECTS EXPERIENCE

All projects were completed as part of academic and group coursework.

| <ul style="list-style-type: none"><li>Designed the user interface and user experience for a mobile application focused on safer tricycle commuting</li><li>Implemented QR code scanning to verify driver and vehicle information</li><li>Designed a fare calculator to promote fair pricing and prevent overcharging</li><li>Created a secure incident reporting feature to help commuters contact proper authorities quickly</li></ul> |                                 |

EDUCATION

---

University of Camarines Norte State

Bachelor of Science in Information Technology

Graduated: June 2026

AWARDS AND RECOGNITION

---

Best in Capstone Project June 26, 2026

- Awarded Best in Capstone Project for "TricyPay – Smart Transportation Management System."
- Contributed as Mobile & IoT Application Developer in developing a smart transportation management system integrating mobile application and IoT technologies.
- The project focused on fare automation, payment processing, and operational monitoring for local transportation organizations.

Special Citation for Research Publication June 26, 2026

- Agent-Based Simulation and GIS Mapping of Tuberculosis Transmission: A Case Study in Daet, Camarines Norte.
- Published in Zenodo.

Certificates
